Connect with loved ones from anywhere in the world

Smiles over Miles is an expansion of an existing USO of North Carolina program that originally brought families of deployed service members to its center to record and mail DVD messages to their loved ones. Now, U.S. service members have an additional, simple and private way to connect with loved ones from anywhere in the world using the SendItCertified.com ePackage™.

The goal of the Smiles over Miles program is to give all deployed military service members the opportunity to send video messages back home – easily from any computer with an internet connection and webcam. The technology also comes with built-in security, so messages are kept private and delivered via secure transmission.

Smiles over Miles is an easy to use, private video messaging platform that brings loved ones close together across any distance.

Smiles over Miles is an expansion of a program that was originally created by the USO of North Carolina for families of deployed soldiers to record and mail DVD video messages to their loved ones. Now, U.S. Service members have an additional way to connect with family members back home.

The Smiles over Miles video messages can be accessed from any computer with an internet connection, and to record a video message all you have to do is plug in a USB web cam. There's nothing else to install or download. You simply click the "record a video" button, look into the camera, and start your video message. When you're done, you can play it back, or send it to any recipient with an email address. It's that simple.
